Reference No.: ZO.2622.1.2025

SmokeD Sp. z o.o.
ul. Warszawska 6/32,
15-062 Białystok

LETTER OF RECOMMENDATION

The Regional Directorate of State Forests in Radom has been using equipment and software from SmokeD Sp. z o.o. for many years on a total administrative area, i.e. 238,812 hectares, which constitutes about 70% of the total area of the Regional Directorate of State Forests in Radom. The equipment of the above-mentioned company is installed in 16 of the 23 forest inspectorates at 37 observation posts and 12 alarm and dispatch points located at the headquarters of each inspectorate.

Over the years, SmokeD Sp. z o.o. has become known as a remarkably professional company that offers cooperation at the highest level. No issues were encountered with the company, neither at the stage of setting up the installation, as well as at the stage of ongoing maintenance.

The company is an entity that is perfectly familiar with the needs of the market in the aspect of fire protection of forest areas and beyond, and has the highest-quality equipment available.

Thanks to the use of the company's equipment, the Regional Directorate of State Forests in Radom has protected dozens of hectares of forest areas where the number and average area of fires have also decreased.

Yours sincerely,
Roman Wróblewski
Deputy Director for Forest Management
/electronically signed/
