P.O. Box 52025 | Phoenix, AZ 85072-2025

February 13, 2025

To Whom It May Concern,

I am pleased to provide this reference for **SmokeD System Inc.** who successfully completed a project for Salt River Project (SRP) involving the **installation and maintenance of a forest fire detection system with weather station** at a few of our R&D demonstration sites in Northern Arizona.

Project Details

- **Project Start Date:** April 2023
- **Project Completion Date:** July 2023
- **Project Scope:**
 - Installation of a **camera-based wildfire detection system** across multiple sites.
 - Integration of **AI-driven smoke detection software** for early warning capabilities.
 - Setup of a **data backhaul infrastructure** for real-time image and alerts.
 - **Ongoing system maintenance and technical support**, ensuring uptime and operational reliability.
 - Training provided for **fire management personnel** on system use and emergency response.
- **Project II Start Date:** June 2024
- **Project II Completion Date:** July 2024
- **Project Scope:**

- Installation of a weather station system to the now existing camera -based **wildfire detection system** across multiple sites.

Performance and Deliverables

Throughout the project, **SmokeD System Inc.** demonstrated:

- **Expertise in wildfire detection technology**, ensuring precise smoke identification and real-time alerts.
- **Efficiency in installation**, completing the project within the agreed timeline and budget.
Strong project management, coordinating with stakeholders to ensure seamless execution.
- **Reliable system performance**, maintaining a high uptime percentage in alignment with contractual obligations.
Exceptional customer support, providing **24/7 monitoring and troubleshooting services**.

The system has significantly improved our wildfire detection capabilities, enabling faster response times and reducing the risk of large-scale fires. The expertise and dedication of **SmokeD System Inc.** have made a meaningful impact on our fire prevention strategies.

I highly recommend **SmokeD System Inc.** for similar projects in forest fire detection and surveillance systems.

Sincerely,

Floyd Hardin

Manager & FMO, Fire Mitigation
